Writing a new chapter

Zunya is an incubator for new projects and ideas. As a space of co-creation, we believe in the idea of bringing something new to life, of sharing it with others, and of spreading a message of awareness and collectivism with the rest of the world. We stand behind the creatives and bright storytellers who are tirelessly working towards re-igniting the conversation in regards to the beauty of our Human and Mother Earth. Our team welcomes submissions from all types of storytellers - written word, photography, videography, and visual art - who hold the belief that they have a story that needs to be shared on a global scale. Please submit your stories to submissions@zunya.com. Before you do, make sure your submission follows our collective guidelines.
